## Operation Instructions

### Step 1

- Long press and hold the power button "⏻" for 3 seconds, there will be a power on prompt sound, entering Bluetooth mode, and the blue indicator light will flash. The speaker will enter the pairing state with the phone's Bluetooth search, with a default volume of 80%. Every time the speaker is turned on, it will automatically restore the default volume of 80%.

### Notice:

Inserting a TF card during Bluetooth playback will automatically switch to the TF card playback mode.

### Step 2

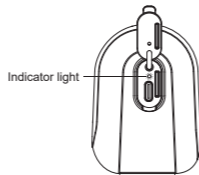

Turn on the Bluetooth function on your phone or other Bluetooth device, and then search for a speaker named MZ-608. Connect to the speaker.

### Step 3

After successful pairing, a prompt tone will sound and the blue indicator light will remain on.

### Step 4

The blue indicator light will flash slowly when playing music on the phone, and it will remain on when the music is paused.

### Step 5

How to connect a speaker to a new device:  
When connecting the speaker to the device, you can press and hold the pairing button "▶" for 3 seconds to disconnect the current connection and enter the pairing state. Then, the blue indicator light will flash quickly, and the speaker can be connected to the new device. When the Bluetooth status is turned on, it will automatically connect back to the last connected device. If there is no connection, it will shut down after 10 minutes.

## Charging Tips

- When the battery is low, the speaker will sound a warning tone and need to be charged.
- The red indicator light remains on during charging, but goes off when fully charged.
- It is recommended to charge products with lithium batteries every three months when not in use.

## Reset Function

- Press and hold the power button "⏻" for 10 seconds to reset the function. After resetting, it will automatically turn on.

## Connect Memory Function

- If the device's Bluetooth function is turned on, after turning on the speaker, the speaker will automatically connect to the last paired device.

## Call Function

- Answer the call: When the speaker is connected to the mobile phone, if there is an incoming call, you can short press the play pause button "▶" to answer.
- Hang up the call: When the speaker is connected to the phone, you can short press the play pause button "▶" during the call to hang up.
- Reject call: When the speaker is connected to the phone, you can long press the play pause button "▶" to reject the call.

## TWS

TWS connection method:

- Open two speakers, double-click the pairing button "▶" on one of them to enter the TWS mutual connection state, and issue a "dong" to form a TWS team. Then, double-click the pairing button "▶" on the other speaker and issue a "dong" sound, wait for the two speakers to pair with each other. Then, connect the speaker to a Bluetooth device to play music, and the next time speakers are turned on, they will automatically connect.

## TF Card Mode

- After inserting the TF card, the speaker will enter TF card mode, and you can short press the power button "⏻" to switch modes.
- In TF card mode, the blue indicator light will flash slowly when playing music, and it will remain on when the music is paused.
